

**AZEEZIA COLLEGE OF DENTAL SCIENCES AND RESEARCH**  
**MEEYANNOR, KOLLAM, KERALA**

During the Teaching & Learning process (in Classroom and Laboratories) and through the student mentoring process, the faculty classifies students as Advanced and Slow learners. The Teacher and the Faculty mentor together analyse the learning abilities of Students/ Mentees based on the indicators such as academic performance and also behavioural, psychological and social aspects.

A) **Slow Learners** are generally characterized as students with superficial learning abilities, poor / slow grasping power, more absenteeism, with attention issues, sometimes with physical, personal and psychological problems and other developmental and diversified issues.

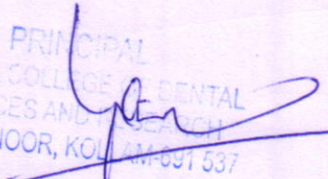

**Characteristics of SLOW Learners:**

- Physical and Psychological problems – motor&visual problems, attention deficits, emotional instability, low self-esteem, time and action disorganisation
- Social – poor judgement, immature social behaviour, poor concentration
- Personal – frustration, aggression, anxiety
- Academic – poor memory, difficulty in comprehension, poor attendance, reluctance to learn
- Developmental issues – immature language pattern, speech / hearing issues
- Diversified interest /Weak or ill interest in studies

**Action Plan for Improvement :**

- Making the learning process fun, easy to understand and comfortable
- Thorough counselling and mentoring process
- Repeating the difficult concepts time to time so that it is well understood by the slow learner
- Remedial problem solving sessions

- Conducting target oriented intensive sessions at institute instead of traditional classroom teaching .
- Providing short and specific direction to students to bring them to level of middle learners
- Providing extra care during individual based, customized practice session for critical courses
- Students who are assessed to have difficulty with language are given special coaching to improve their language skills.
- Special classes are taken for every subject by the respective faculties
- Activity based learning is promoted for better understanding of the subject
- Rapid revision of important topics is done prior to the university examination
- Students are encouraged to follow and read text books with simple language for easy understanding and reproducing the same in the exams
- Provision for special notes( lecture topic based handouts ) is given
- Periodical assessment and evaluation are done by giving class tests on short topics

## E-LEARNING/Website/ICT COMMITTEE

Information and Communication Technology(ICT) in education is very helpful in improving the quality of education and obtaining expert knowledge from any corner of the world.

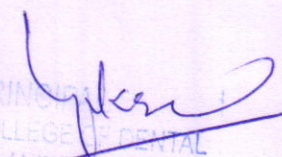

Hence Azeezia College of Dental Sciences & Research has formed an E-learning Committee on 06.03.2023 , to achieve the desired quality of education. The institution facilitates E-learning and technology oriented learning to the students through e-library and smart class rooms. Powerpoint presentations are an integral part of the teaching methodology in most of the courses. They ensure not only effective knowledge transfer but also facilitate follow up interactive sessions with the students. The institution encourages the staff members not only to upgrade their academic profile but also their pedagogical strategies by offering advanced and latest ICT facilities. The institution thrusts for the usage of ICT in education by teachers and has also provided ICT facilities for the same.

### OBJECTIVES OF THE COMMITTEE

- The college Website/E-learning committee is responsible for maintaining the college's website.
- The committee ensure that content is up-to-date and accurate.
- Collaborate with the campus web team to maintain current web standards ,styles,protocols etc. and build links to high level content.
- Collect and discuss feedback from college members.
- Training programmes and hand on experience for using computers and internet.
- Providing exposure on ICT in the present day context and e-content creation.

## **DENTAL EDUCATION UNIT:**

Dental Education unit of Azeezia College of Dental Sciences & Research works for the enrichment of knowledge for its faculty through development of teaching and learning competencies and faculty empowerment strategies. This unit is exclusive to improve the quality of the teaching among the faculties to make learning an enjoyable experience for the undergraduate and postgraduate students.

The dental education unit sensitizes the faculty members regarding the development of teaching skills using the active learning centres. It also encourages the faculty members to actively participate in the different scientific programs conducted at National and International level.

### **Objectives:**

- To ensure for a continuous improvement in quality of teaching and learning skills.
- To strive for a continuous improvement in assessment methods of professional education.
- To promote and facilitate educational research activities.
- To update the knowledge of faculty for current trends in dental education by conducting workshops and conferences.
- To update the knowledge of faculty for advancements in dental practice.
- To promote and facilitate contribution towards institutional activities of feedback system , communication skills ,human values and Professional ethics.

- To organize and conduct the scientific programs (CDE /Conference/Workshops /any other )
- To follow the instructions provided by the University regarding the scientific programs.

### **STRUCTURE OF DENTAL EDUCATION UNIT**

- 1 . The committee should have a Chairman and Co-Chairman who will jointly monitor the functioning of the committee followed by the Convenor whose responsibility is to maintain the communication between all the members of the committee.
- 2 . There should be atleast one Faculty member from each department who can communicate with their respective HOD's for the scientific programs.

### **The Committee members of DENTAL EDUCATION UNIT**

**Chairman : Dr. K.Radhakrishnan Nair**

## **Guidelines for organizing meeting of DENTAL EDUCATION UNIT**

The Dental Education Unit was formed in the year 2017. It is supposed to held a meeting in an academic year preferably in the month of August and September. All the members of the DEU are supposed to attend the meetings positively.

The decision to call for meetings will be taken by the Chairman or the Co-chairman of the committee.

The members should be informed before hand about the time ,date and the venue of the meeting along with the agenda of the meeting.

## **Guidelines for Organizing CDE/Workshop/Hands- on/Conference/ Convention**

The different scientific programs can be organized for the welfare of the students and the faculty members in the form of CDE/Workshop/ Hands-on/Conference/Convention. The CDE programs are usually of a short gathering in which the person specialized in a subject is invited to present on the same. The hands-on included training and demonstration of practical procedures which one need to apply in their practice , and the Workshops involves the group discussion and also the hands-on training of certain procedure. The conference and the conventions are meant for the huge gathering with the multiple speakers in it and it may have different workshops and the hands-on courses included in it.

**VISION :** The vision behind the conduction of these programs is the overall delopment and upgradation of the Faculties and Students in the field of Dentistry and allied subjects.

**ROLE :** The Dental Education Unit acts as the supervising body to the organizing committee formed by the respective department.
