

## METHODS OF ASSESSMENT OF LEARNING OUTCOMES AND GRADUATE ATTRIBUTES

Mainly three internal examinations conducted in every year. A student will be assessed with three intervals every year.

1. First internal examination
2. Second internal examination
3. Model examination

Evaluation of answer sheets done at college level and after the results discussions are held for clearing their doubts. Students who secured low marks are denied from appearing the university examinations.

### Final examination

Final examinations conducted at the end of the academic year by the university (kuhs).

IF any doubts regarding the marks students can apply for retotaling and for providing the copy of their answer sheets.

### Examination pattern

All the internal and university examination consist of

1. Theory examinations
2. Practical examination
