AZEEZIA

COLLEGE OF DENTAL SCIENCES & RESEARCH

4.1.1

The College provides various facilities that gives the students excellent learning opportunity. Digital dental radiography like IOPA, OPG, Newtom CBCT facilitates student learning from single to three dimensions. Confident RVG with less radiation exposure and Labomed Prima DNT Surgical Microscope are also used for better diagnosis and treatment plan in Department of Conservative dentistry and Endodontics. Each departments acquaint students with recent advances in their respective fields using Zolar Laser unit for Laser treatments, Woodpecker Piezo surgical unit for various surgical procedures like Ridge Split during Implant placements etc, and Injection molding machines in the Department of Prosthodontics and Crown and Bridge for fabrication of flexible dentures which are far more superior to conventional removable prosthesis. All these facilities ensure quality education for the students simultaneously providing multiple treatment options for the patients too.
